

## XpresSpa Introduces IV Hydration Drip Therapy at Miami International Airport

May 2, 2024

### Pilot program designed to expand service offerings and drive revenue growth

NEW YORK, May 02, 2024 (GLOBE NEWSWIRE) -- XWELL, Inc. (Nasdaq: XWEL) ("XWELL" or the "Company"), an authority in wellness solutions for people on the go, today announced the introduction of IV hydration drip therapy at its Miami International Airport (MIA) XpresSpa® location. In partnership with Revitalize IV Lounge ("Revitalize"), the new service, which offers a fast and efficient way to deliver vitamins, minerals, and amino acids directly into the bloodstream, is available in MIA's North Terminal, Concourse D, Gate D-11.

"A popular and effective treatment to replenish our body's essential nutrients, IV hydration drip therapy is a compelling addition to our XpresSpa menu of services and provides yet another opportunity to drive more revenue at higher margins," said XWELL CEO, Scott Milford. "Miami is a great location for us to pilot Revitalize's IV drips, with the intention of expanding to other U.S. markets."

IV hydration drip therapy ensures rapid absorption and replenishment of fluids and helps to boost energy levels, aid in recovery from jet lag, and enhance recovery from illness or strenuous activity. The XpresSpa location in Miami currently offers four IV hydration drip therapy options to its customers:

- **Jet Lag Xpress:** A blend of trace minerals and B-complex vitamins help regulate circadian rhythm sleeping patterns, boost mental performance, and help travelers stay sharp and focused.
- **Myer's Cocktail:** The perfect blend of multivitamins and hydration, it helps alleviate chronic symptoms like inflammation, muscle pain, fatigue, and stress.
- **Ultimate Xpress:** This potent vitamin blend enhances the immune system, detoxifies the body, increases energy levels, and restores hydration.
- **Xpress Recovery:** Get instant hangover relief with a high dose of vitamins and minerals that help hydrate the body and replenish electrolytes.

XpresSpa's IV hydration drip therapies can be administered in as little as 20 minutes with prices starting at \$220 per session.

The introduction of Revitalize's IV hydration drip therapies in Miami underscores recent growth across the XWELL portfolio including the launch of Clockwork MiNiCURE robotic manicures at Harry Reid International Airport in Las Vegas (LAS), Miami International Airport (MIA) and John F. Kennedy International Airport (JFK), the introduction of Stretch services, and the expansion of fully autonomous massage chairs by HydroMassage and Human Touch®. XWELL also recently opened an XpresSpa location in Abu Dhabi and announced plans to open a tech-forward, labor-lite location in New York City's Penn Station.
